

How to guide for the Juice Cube Dispenser

Juice Cube products are supplied in 2 x 5 litre bag in box (with tap). Ambient storage of up to 9 months. Once opened the product must be kept chilled (use ice packs during service and refrigerate out of service). Once opened and chilled the product has a 5 day shelf life.

Remove lid to enable juice to be placed inside.

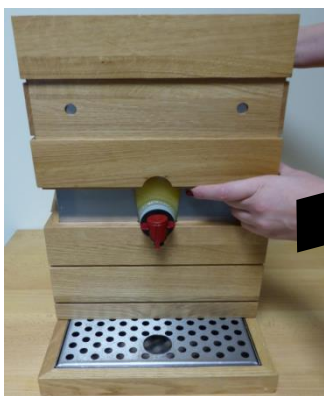

Place juice into cube.

Position tap on juice in to the grooved recess at the front of the cube.

Place ice packs either side of the juice bag.

Position the lid securely back on the base of the cube.

Open juice by pulling perforated tab off tap.

Place the Stay Safe Adaptor over the tap and gently push downwards until it clunks and clicks into position.

Affix the interchangeable display fascia to the front and the Juice Cube is now ready for use.
